# Struggle

## Ringside

There goes Elvis kicking up a landslide
Close shave now, he's back on the flipside
Stretch taxi gonna fly me to the Hollywood BowlIt's a bitch Jack when you need some feedback
You hang while they hold you and you never get the ring back
But I like you best when you're down with the rest of usI just want to move ahead
I just want to free myself, but it's a struggle
I just want to stay in bed
I just want to be myself, but it's a struggleMilk the mailboy, you just might get some insight
Knock it back Jack, you're faded but you're alright
Make sense of this mess, I'm just taking the piss out of youI just want to move ahead
I just want to free myself, but it's a struggle
I just want to stay in bed
I just want to be myself, but it's a struggle
