

Know the Pain

Kill Your Idols

How do you feel its the next day used like a toy then thrown away now youre the one whos gonna be hurt
because you've been used and treated like dirt now your there all alone waiting by the fucking phone hold your
head you start to cry a broken man wondering why now you know the pain i feel and to see that it is real i know
beacuse i cant see feeling hurt beacuse i care taken advantage of now im scared because of what ive seen liars
like you dont come clean
