

# Coming Undone

## Darling Parade

Sometimes the truth is hard to swallow  
But you can choke to death on your pride  
Could you think you might be the reason?  
Can you go to bed with your lies?

You should know that you're fighting for nothing  
When deep down you know you're looking for something  
You keep giving it the third degree  
Well you don't stand a chance if you're messing with me-e  
All this time you'll be getting the run around  
Spreading it around  
its running you outta town  
You keep giving it the third degree  
Well you don't stand a chance if you're messing with me-e

You're playing king in your ivory tower  
It doesn't matter what happens to us  
Well if this is your best then you got what you wanted  
You can take whats left and have fun by yourself

You should know that you're fighting for nothing  
When deep down you know you're looking for something  
You keep giving it the third degree  
Well you don't stand a chance if you're messing with me-e  
All this time you'll be getting the run around  
Spreading it around  
its running you outta town  
You keep giving it the third degree  
Well you don't stand a chance if you're messing with me-e

So long  
Just so long  
To everyone that you've known  
Cuz its not gonna work  
No it never works on me  
Or anyone

You should know that you're fighting for nothing  
When deep down you know you're looking for something  
You keep giving it the third degree

Well you don't stand a chance if you're messing with me-e  
All this time you'll be getting the run around  
Spreading it around  
its running you outta town  
You keep giving it the third degree  
Well you don't stand a chance if you're messing with me-e-e
