

Drunken Butterfly

Mads Langer

Smile like a sun
Back over time
Crazy for you
Pleasure is mine I love you, I love you, I love you
What's your name?
I love you, I love you, I love you
What's your name? You're coming through it
Even it up
Going too far
Try understand I love you, I love you, I love you
What's your name?
I love you, I love you, I love you
What's your name? Whisper, kiss your ear
I'll tell you what I fear
Whisper the kisses in your ear
I'll tell you what I fear Come on home
Just ain't fair
Name of rock 'n' roll
Where love dies
Couldn't find a soul
Tell it like it is
Deep down inside
Drunken butterfly I love you, I love you, I love you
What's your name?
I love you, I love you, I love you
What's your name?
I love you, I love you, I love you
What's your name?
I love you, I love you, I love you
What's your name?
