

Starcrazy

Suede

She's star, starcrazy
Electric shock bog brush hair
Flat on her back in the 80s
In the 90s going nowhereStar, starcrazy
Got a kicking transistor inside
A heavy metal stutter that brains me
And an electric love in her eyesOh, she don't want education
She got nothing to say
She got no imagination, so they say
"Why does she feel this way?
Why does she feel this way?"Cos she's star starcrazy
Getting stupid on the streets tonight
Shaking like a mechanical thing
With an electric love in her eyesOh, she don't want education
She got nothing to say
She got no imagination, so they say
"Why does she feel this way?
Why does she feel this way?"Violence
Violence
1, 2, 3, 4She don't want education
She got nothing to say
She got no imagination, so they say
"Why does she feel this way?"Oh, she don't want education
She got nothing to say
She got no imagination so they say
"Why does she feel this way?"Oh, she don't want education
She got nothing to say
She got no imagination, so they say
"Why does she feel this way?"Why does she feel this way?
Why does she feel this way?"
