Let the Day Begin

Samhain

Let the day begin
Let the horror start
Let the fury swell
Let the skies all cry
Let the day beginLet the fun begin
Let the worlds collide
Let the day begin
Let humanity spin
Let the day beginInherent time is at hand
So then let the day begin
Nomadic waltz into light
So then let the day beginLet the world stand bare
Let it stand on trial
Let it open up
Let the tides explode
Let the day beginLet the Jews all scream
Let the Catholics burn
Let the Protestants hide
Let the false ones
Wallow in their own demiseLet the fun begin
Let the worlds collide
Let the day begin
Let humanity spin
Let the day beginInherent time is at hand
So then let the day begin
Nomadic waltz on into light
So then let the day beginInherent time is at hand
So then let the day begin
Nomadic waltz on into light
So then let the day beginInherent time is at hand
So then let the day begin
Nomadic waltz into light
So then let the day beginAnd the earth stands stripped
And it's imminent rape
Let them get their due
Let them feel the pain
That they gave to youLet the day begin
Let the horror start
Let the fury swell

Let the skies all cry
Let the day beginInherent time is at hand
So then let the day begin
Nomadic waltz into light
So then let the day beginInherent time is at hand
So then let the day begin
Nomadic waltz into light
So then let the day begin
