Get 'ya Some

Poison

Good God, what do I see?
Pretty little thing just looking at me
Ohh, ohh, sexy thing, I say walk that thing
Right over here, just one thing
I've got to make clear, ohh, ohh, sexy thingThe way you move your body
It's driving me insane
Don't you dare take me there
Then shoot me down in flamesShe's just like a loaded gun
I just gotta get me some
Girl's so hot you know is true
That woman gonna make a man of youReally ain't no mystery, I want you and you want me
Ohh, ohh, sexy thing
I want your ten toes up and my ten toes down
Two wet bodies going round and round
Ohh, ohh, sexy thingNow it really ain't no secret
I don't want this night to end
She said, "Don't you worry, Bret
I brought along a friend"She's just like a loaded gun, I just gotta get me some
Girl's so hot, you know is true
That woman gonna make a man of you
She make a dead man come
Just got to get me someShe's just like a loaded gun
I just gotta get me some
Girl's so hot, you know is true
That woman gonna make a man of youShe's just like a loaded gun
I just gotta get me some
She make a dead man come
I gotta get me some
