Say What You Will

Fastway

Nowhere to run, nowhere to hide
What you're doin' to me, all this jive
I can see it 'fore the light of day
'Cause now you're gonna'
You're gonna' do it my way, you areSay what you will
And you will
Say what you willDon't push me around, if you don't mind
But you keep on doin' it all the time
I don't know much but I can say
You got me feelin' like a fool left to pay, you doSay what you will
And you will
Say what you willYou got me feelin'
Like I'm going nowhere
Hit and loveSee in me the love
The drive I wanna' feel
See in me the love
The drive I wanna' feel tonightSay what you will
And you will
Say what you willI [Incomprehensible] mercy, I'm gonna' bleed
Nobody's gonna' make a monkey of me
I can do it for you, I'd be so kind
'Cause if I don't I think I'll blow my mind tonightSay what you will
And you will
Say what you will
You will
