

# What Could've Been

Ginuwine

[Verse 1]

Seen you the other day  
Still looking so fine  
Hating that I lost what I had in you,  
If I could turn back time  
I would make a change and never do the things that I done to you  
I see you're doing good  
Shawty your career is taking off like mine  
And what we could have done together what a shame  
I'm bout to lose my mind[Chorus]  
It's starting to hit me now  
All I think about is what could've been  
And I just sit around thinking about you  
Only what could've been  
It could've been us with the kids, house on the hill, you the first lady and I'm the president  
Now all that I did not worth this  
(Thinking bout what could've been x2)[Verse 2]  
I'm reflecting on the past  
that special thing we had  
I should have worked it out,oh  
I just couldn't see it then,  
but seeing you with him, I know his names on it now  
and I been through all the change it's moment now a days  
I wanna settle down, down  
Memories playing in my head so many things I said, wish we could talk about[Chorus]  
It's starting to hit me now  
All I think about is what could've been  
And I just sit around thinking about you  
Only what could've been  
It could've been us with the kids, house on the hill, you the first lady and I'm the president  
Now all that I did not worth this  
(Thinking bout what could've been x2)[Hook]  
I didn't appreciate when you were mine  
And now I'm askin  
God just once turn back the hands of time, yeah  
So I can fix some wrongs give me another, give us another chance  
Girl I'm tryna live without you then living with regrets  
I guess it wasn't ment, I'm Stuck here wondering if[Chorus]  
It's starting to hit me now

All I think about is what could've been  
And I just sit around thinking about you  
Only what could've been  
It could've been us with the kids, house on the hill, you the first lady and I'm the president  
Now all that I did not worth this  
(Thinking bout what could've been x2)
