

# Angel Effluvium

## Aseidad

Your sweet effluvium  
distilled in drowned season  
    receive it from  
    receive it from  
your strange lips,  
I've engendered  
    silent caress  
but now you can  
but now you can  
break my self. Angel effluvium, entomb me beneath the bitter cloak  
angel effluvium, your effluvium in my mouth. You can die in other love  
    I denied your urge  
I'm buried with my faults  
    `cause you embrace me  
`cause you embrace me. You can die in other love  
    I denied your urge  
I'm buried with my faults  
    `cause you embrace me  
    `cause you embrace me.
