

# Me and You

## Saving Abel

When it all comes down to me and you  
Were all hiding a little lie under the truth  
Maybe we should take our time, theres nothing to lose  
Cause it all comes down to me and you Before I let you know know know  
I will never let you go go go  
Thinkin you have loved any time, any place anymore  
I guess I shouldve learned learned learned  
I couldve got burned burned burned  
Kinda feels like Ive been here before When it all comes down to me and you  
Were all hiding a little lie under the truth  
Maybe we should take our time, theres nothing to lose  
Cause it all comes down to me and you Its just another kiss goodbye  
Just another reason why  
Cant run every time everyone says everythings gone wrong  
Cause I wont let you get away  
I wont let your arms down me  
No use pretendin anymore Baby, when it all comes down to me and you  
Were all hiding a little lie under the truth  
Maybe we should take our time, theres nothing to lose  
Cause it all comes down to me and you When life is hard, when life is hard  
And we cant miss all, we cant miss all When it all comes down to me and you, yea When it all comes down to  
me and you  
Were all hiding a little lie under the truth  
Maybe we should take our time, theres nothing to lose  
Cause it all comes down. Baby, when it all comes down to me and you  
Were all hiding a little lie under the truth  
Maybe we should take our time, theres nothing to lose  
Cause it all comes down to me and you
