

# I Thought I Heard You Calling My Name

Porter Wagoner

Advisory - the following lyrics contain explicit language:

I said goodbye to you this morning with only these words to explain  
I said I've found someone I love better but I still hear your voice call my name  
I thought I heard you calling my name funny I still feel this way  
Your voice seemed so close but I knew that by now you were many miles away  
[ steel - fiddle ]  
I walk through the streets of the city people passing by think it's so strange  
I'm talking but there's no one beside me I thought I heard you calling my name  
I thought I heard you...
