

Hear My Call

The Pentangle

[Verse 1] Here I am again asking questions,
Waiting to be moved.
I am so unsure of my perception,
What I thought I knew I don't seem to
Where is the turn so I can get back to what I believe in?
Back to the old me and

[Chorus] God, please hear my call. I am afraid for me.
Love has burned me raw I need your healing

Please...Please ... Please

[Verse 2] I am such a fool

How did I get here?

Played by all the rules

Then they changed

I am but a child to your vision

Standing in the cold and the rain

Lost here in the dark

I can't see.

My foot to take a step, what is happening?

Oh, this hurts so bad. I can hardly breathe.

I just want to leave so

[Chorus x2] God, please hear my call. I am afraid for me.

Love has burned me raw I need your healing

Please.

God, please hear my call. I am afraid for me.

Love has burned me raw I need your healing

Please...Please...oh Please...please oh...oh

God, please hear my call. I am afraid.

Love has turned me cold I need your healing

Please...please...please please...please....please
