

Here

Rascal Flatts

Theres a place Ive been lookin' for
That took me in and out of buildings
Behind windows, walls and doorsAnd I thought I found it
Couple times even settled down
Then Id hang around just long enough
To find my way back outI know now
The place that I was tryin' to reach
Was you right here in front of meAnd I wouldnt change a thing
Id walk right back through the rain
Back to every broken heart
On the day that it was breakin'And Id relive all the years
And be thankful for the tears
I've cried with every stumble, step
That led to you and got me here
Right here, oh, babyIt's amazin', what I let my heart go through
To get me where it got me
In this moment here with youAnd it passed me by
God knows how many times
I was so caught up in holdin'
What I never thought I'd findI know now
Theres a million roads I had to take
To get me in your arms this wayAnd I wouldnt change a thing
Id walk right back through the rain
Back to every broken heart
On the day that it was breakin'And Id relive all the years
And be thankful for the tears
I've cried with every stumble, step
That led to you and got me hereIn a love I never thought I get to, get to, here
And if that's the road God made me take
To be with youAnd I wouldnt change a thing
Id walk right back through the rain
Back to every broken heart
On the day that it was breakin'And Id relive all the years
And be thankful for the tears
I've cried with every stumble, step
That led to you and got me here, right hereAnd Id relive all the years
And be thankful for the tears
I've cried with every stumble, step
That led to you and got me here

Right here, oh, baby
Ooh, oh got me here
