Spark Plug

Idiot Pilot

There is no sense in being interested in a child, a group or in a society
There is no sense if one does not see in them before anything else
The life it's capacity to founded upon itselfThere is no sense in being interested in an ill person
Or unwell a society if one cannot believe their readiness
And the capacity for proper recoveryThere is no sense in being interested in an ill person
Or unwell a society if one cannot believe their readiness
And the capacity for proper recoveryAuto recovery
Auto
