# No Compromise

## 30Footfall

You want it all, you want it all
(No compromise, no compromise)
You want it all, you want it all
You want it all, you want it all
(No compromise, no compromise)
You want it all, you want it all
Just another victim baby, left dead
Watch you burn the bodies in your haste to get ahead
Spread your lies, spread your lies
Spread your lies, spread your lies
(Spread your lies, no compromise)
You want it all, everything
No compromise
(No compromise)
You need it all, everything
No compromise
In another vision you were lost for days
(No compromise)
Never learned the language, easier to walk away
Spread your lies, spread your lies
(Spread your lies, spread your lies)
Spread your lies, spread your lies
(Spread your lies, spread your lies)
You want it all, everything
No compromise
(No compromise)
You want it all, everything
No compromise
(No compromise)
You want it all, everything
No compromise
(No compromise)
You want it all, everything
No compromise
(No compromise)
If you want it all, you gotta let it go
If you want it all, let love flow
(Let it flow)
If you want it all, you gotta let it go

(Let it flow, let it flow)
If you want it all, let it flow
(Let love flow)
No compromise
You want it all, everything
No compromise
(No compromise)
You want it all, everything
No compromise
(No compromise)
You want it all, everything
No compromise
(No compromise)
You want it all, everything
No compromise
(No compromise)
You want it all, you want it all, you want it all
(No compromise)
You want it all, you want it all, you want it all
(No compromise)
