

Where Did the Morning Go?

Blue Highway

Where did the morning go?
I meant to do much more with this life
I was born a clear and sunny day
Now evening shadows fall my way
Where did the morning go?

It was dawn when my babies cried
Now they're able to walk out on their own
I've had a family that I've always loved
And I made peace with my God above
But where did the morning go?

I've held hands that I loved to hold
But an evenin' came when I had to let 'em go
I still write the words down to my songs
But it's different voices that sing along
Where did the morning go?
