

# Never

## Flo Rida

(Never)

Never give up, never hold your head down

Never fear no man, never trust anybody

Never say you can't, never, never, never

(Never, never, never)

No

Never give up, never hold you head down

Never fear no man, never trust anybody

Never say you can't, no, no, no never

Momma said never be a quitter, never since I was young

Never been in my roots, don't let never make you a bum

Never, my only son, she said, never beggin', for crumbs

If never found out your slippin' then never might be a gun

Never think suicide, never steal, never lie

Never run up to a gunfight and think you gon' survive

Never that lil' 6 nuts, 6 is for the flies

Never become a snitch, if you would rather be a quiet

Never know 'em, never met 'em

Never seen that fella, never, never, never

When they put you in that room that's what you tell 'em

Hell never to the law, never I'm a be a star

Never catch me up to mar

Never worry, never bury, tears on your teen jersey

Keep it 42, be worthy, never go without the curry

Never the greatest of all time, you in a hurry

Never, it's too early, never have no mercy

(Never, never, never)

Never give up, never hold you head down

Never fear no man, never trust anybody

Never say you can't, never, never, never, no

Never give up, never hold you head down

Never fear no man, never trust anybody

Never say you can't, no, no, no never

Never cross a man as far as you can throw 'em

Never put ya fate at home, boy, y'all know 'em

Never get in the herd, never get into church

Never cook in your life buried 6 feet under dirt

Never hate, never envy others 'cause they getting cake

Never grind, never hustle, never see your dinner plate

Never be fake, never be a snake  
Never play that shit dog till they bring that pepper spray  
Never be scared, never hurt your head  
Never 'cause if they was killers you would already be dead  
Never pout, never ever have doubt  
Never let that be the reason you still sleep on mommas couch  
Never brag, never be stingy with cash  
Never get in for business, mind your own, take 'em now  
Never cry wolf, never daddy ma boo, never less than a survivor, never  
(Never, never)

Never give up, never hold your head down  
Never fear no man, never trust anybody  
Never say you can't, never, never, never  
(Never, never, never)

No

Never give up, never hold you head down  
Never fear no man, never trust anybody  
Never say you can't, no, no, no never  
Don't be slick, never silent, don't be bricks  
Never set your wig split, never rob your click  
Never, never miss your blesses, never start second guessin'  
Never get to heaven, never 'cause you missed the lesson  
Never bite the hand that feed, never live in greed  
Never succeed, never doin' dirty deeds  
Never chunk, never give up on your hope  
Under pressure dream big when it's rough, make a toast  
Never sell your sole, never for some dough  
Never diamonds, never pearls, when you die, never go  
Never back down, never let your hat down  
Never see no bully, let 'em know your background  
Never cross the line, never cross your kind  
Everyday let it be, never worry, never toss your mind  
Never lose sleep, never 'cause you got beat  
Never know peace, never when you in these streets  
Never give up, never hold you head down  
Never fear no man, never trust anybody  
Never say you can't, never, never, never, no  
Never give up, never hold you head down  
Never fear no man, never trust anybody  
Never say you can't, no, no, no never  
Never, never, never
