

Just The Past

Peter Bjorn and John

Tell me how, do I
get to know you
You untie me as if I were a shoelace
You let out all i can hold between my buttons
With you I get nothingEven if, I gave
you a mountain
on a bad day you don't think your are at the top of it
then how can I change that
when it's in your fundament
you can't take a complimentTake a rest with me
after a long day
foots on the table
don't take them down down down
don't take them downIs it your parents??
Or just the past x2La la la's...If you, should reach
what you aim for
don't kid yourself to blame for
what's obviously not your fault
then laugh this away
you won't get to hear
what I really have to sayWhat I see is not
what you think I see
and what I think
is not what you think I think
I know me
but you don't know me
cuz I don't know youBut...Take a rest with me
after a long day
don't take them down down down
don't take them downIs it your parents
or just the past x2La la la's...
