

# She's On Fire

Matt White

The morning it comes all night long  
I see the next one going over my throne  
It's on  
Come undone  
Its my first time baby so take it slow  
Dont get me on overload again  
See thats a threat  
And I know that you can  
Take it a mile  
And when my neck explodes yeah  
Shes on fire  
All night long  
Been waiting here  
For you to get home from wherever you gone to again  
I said its sin  
Come back baby come back real fast  
It is my first time going on this pass again  
I realize its a sin  
So dont look at me baby  
Nice and slow  
Cause when my head gets burnin  
Its on overload yeah  
And I know that you dont wanna know  
And when my head gets going  
Shes on fire  
Fire fire shes on fire fire  
Can you get higher  
Oh shes on fire  
And it is my time  
Shes on fire  
And when I need to know  
Shes on fire  
And when I need to go get  
Shes on fire  
Shes on fire  
Shes on fire  
Shes on fire  
Shes on fire
