

Wonder Woman: Dedicated To Amanda Todd

Elise Estrada

I don't wanna get out of bed
Let me hurt alone instead
Officially out of my head
That's what your doing here

I'm just another game that you play
With every hurtful thing that you say
But I really can't do it today
Yeah, That's what your doing here

I wish I was made of steel
So all your bullets would bounce off
Cause all these scars should get lost

[Chorus]
I'd rather dream
Like im flyin through space
In my invisible plane
Instead of hurting this way

I'd rather dream
I was some kind of hero
And had the power to make this stop

Just like wonder woman
Words hurt more then you'll ever know
I wish I could make this stop
Just like wonder woman

I'd really like to make you see
Exactly what your doing to me
Do you really wanna make me bleed?
That's what your doing here

I'm not asking you to be my friend
Or expecting you to hold my hand
But why you gotta push me down?
Cause that's what your doing here

I wish I was made of steel

So all your bullets would bounce off
Cause all these scars should get lost

I'd rather dream
Like im flying through space
In my invisible plane
Instead of hurting this way

I'd rather dream
I was some kind of hero
And had the power to make this stop

Just like wonder woman

Words hurt more then you'll ever know
I wish i could make this stop

Just like wonder woman

If I wonder woman
Maybe you would listen
Maybe you would hear me

If I was wonder woman
Maybe I could stop this
So no one ever has to hurt again

I'd rather dream like im flying through space
In my invisible plane
Instead of hurting this way

I'd rather dream
I was some kind of hero
And had the power to make this stop

Just like wonder woman

Words hurt more then you'll ever know
I wish i could make this stop

Just like wonder woman...
