

# Theories

## pLasterbrain

### Verse 1]

Did you ever tell 'em how you wound up in that chair?  
Did you sneak in the lair while the king wasn't there?  
Did you make 'em all aware sometimes life isn't fair  
When you slaughtered the heir though he asked to be spared?

Did you make 'em think that God had something on his mind?  
Did he make a design that went outside the lines?  
For when danger shows a sign and you leave me to die  
I'll rehearse all my lines just one more time

### [Bridge]

I really don't know  
(What else can I say?)  
I'm just not sure  
I wasn't involved  
(Could've been a knife.)  
It could've been anyone

Well the way things go  
Are you so surprised?  
Mr. Universe  
Had us hypnotized?  
Did you still love him when he blew that lid?  
Well rumor has it that the concubine did!

### [Chorus]

How can disaster seem so divine?  
Why am I waiting on bad fortune?  
Burnt to the ground but everything's fine  
'Cause every mistake you make is mine

### [Verse 2]

Swallow your fears now, here we go  
Can I ask who's calling?  
Who wants to know?  
I've got a man that's not quite right in the head  
Are you sure you didn't mean to call the cops instead?

Doctor don't lock him in an institution!  
If you want home care there's only one solution:  
    Teach your man life isn't fair  
    Everybody knows but no one cares

    How can disaster seem so divine?  
    Why am I waiting on bad fortune?  
    Burnt to the ground but everything's fine  
    'Cause every mistake you make is mine

[Verse 3]

Did you tell 'em 'bout the promises you're gonna break?  
All the choices you'll make and the steps that you'll take  
To ensure that what's at stake are the things you'll forsake  
    Big surprise that the snake'll turn out to be fake  
Do you think about the consequences that you'll leave  
    When you con and deceive and the people believe  
Sure that they're the ones to grieve over what you achieve  
All the plans you conceive and the plots that you weave

[Bridge]

I really don't know  
(What else can I say?)  
    I'm just not sure  
    I wasn't involved  
(Could've lost my life.)  
    It could've been anyone

Well the way things go  
Are you so surprised?  
    Mr. Universe  
Had us hypnotized?  
Did you still love him  
    When he let you down?  
(Well rumor has it what goes around comes around.)

[Chorus]

How can disaster seem so divine?  
Why am I waiting on bad fortune?  
    Burnt to the ground but everything's fine  
    'Cause every mistake you make is mine
