

Take It to the Head (feat. Keith Murray)

Kelly Price

Breathe it in, breathe it out
Flying high ain't no doubt
I take it to the head yo love
On a ride, in the clouds
Feeling good won't come down
I take it to the head yo love Stepped in the room I saw you
Instantly knew I had to
Present my game and keep it cool
Wanted so much to kiss you
To let you know I miss you
I just laid back and let you move Fronting like you don't want me
Acting like you don't need me
But it's okay that's just your way
There's a physical attraction
Cause a chemical reaction
So come on boy
Inhale...exhale The time is right for romance
And I want you for my man
I know you want me for your girl
Baby I know you're willing
So let's not fight the feeling
Give it to me and rock my world
