

# Like A Friend (Vandit Club Mix)

**Paul van Dyk**

There's anguish despair  
And we don't feel a thing  
How can I make you think?  
How can I make you change...lives?Deliver new dreams  
Give back a child and smile  
Sending a wind of change  
To free another's... worldStop turning over  
It won't go away  
If we don't do anything  
It will always stay  
But there's a way (mmmmmm there's a way)[Chorus]  
Be aware of the world  
And be true to your conscience  
Be aware of its needs  
Like a friend you can hold themBe aware of the world  
And be true to your conscience  
Be aware of its needs  
Have a care, have a conscienceThere's anguish despair  
And we don't feel a thing  
How can I make you think?  
How can I make you change? (How can I make you change?)Deliver new dreams  
Give back a child and smile  
Sending a wind of change  
To free another's, free another's worldWhat I'm going to tell you  
You don't want hear  
It's a million miles away  
And a million tears  
And a million tears[Chorus]
