

# Grandma's Love

Mark Yamanaka

Years gone by  
And I can't forget  
The love you shared with me  
Your gentle soul granded my heart and my memories

There's nothing like a grandma's love  
There's no one quite like you  
Wish I could see you smile once more  
Like you used to do  
Like you used to do

Your gate form the heart and know you did for our family  
The sacrifices that you made  
Often when come see

There's nothing like a grandma's love  
There's no one quite like you  
Wish I could see you smile once more  
Like you used to do  
Like you used to do

Mommies and daddies have their own way of  
Sharing love with you  
There's always a little something more  
The way that grandma's do

There's nothing like a grandma's love  
There's no one white like you  
Wish I could see you smile once more  
Like you used to do  
Like you used to do
