Deep Silent Complete

Nightwish

In your creation heaven did decree
That in your arms sweet death should dwell

Deep Silent Complete
Black velvet sea
The sirens are calling for me

Saved my soul thinking "This song's a lie"
Sand on the shore is so dry

Deep Silent Complete
Black velvet sea
Brave day sinking in endless night

The age will say "This poet lies"
Heaven never touched earthly face
The age will say "This night was ours"
Blessed with the Deep
The Silent the Complete
