Save Me from Me

Mission Hill

She said I can fix you
I can make you happy
I can turn your look around.

All you need is someone who can understand you
Someone who won't let you down.

I said you don't know me
What makes you believe that
I need anything at all.

Look into these eyes and tell me why you
Wrap your legs around this wrecking ball.

[Chorus]
I don't need blood, I don't need bones.
I don't need anyone to take me home.
I don't need love if all that it means is someone
To mother and smother me.
All that I need is someone to save me from me.

Your not gonna change me if that's what your thinking.
Don't even waste your time.
Unless I feel the pain of living life this way then I don't
even feel alive.
I know it's hard to see why someone would want to spend his life out on a ledge.
Well I don't have the answers I just need someone to make sure I don't step off the edge.

[Chorus]
I don't need blood, I don't need bones.
I don't need anyone to take me home.
I don't need love if all that it means is someone
To mother and smother me.
All that I need is someone to save me from me.

Save me from me.

[Chorus]
I don't need blood, I don't need bones.
I don't need anyone to take me home.

I don't need love if all that it means is someone
To mother and smother me.
All that I need is somebody to be.
Someone to save me from me.

She said I can fix you
