

# Green Lights

## NRBQ

Green Light  
Any old time  
You got your dial tuned in  
Baby by your side  
And your gettin' in a cool ride  
It feels so good  
You got the top pulled in  
Wind in your hair  
Destination is you don't care chorus: Crazy sound on the radio  
She feels something  
Now you know there's no place that you'd rather be  
Now move it on up  
You know it's feelin' all right  
Foot's to the floor  
But you think that you can do more  
Wind shield clear  
And the night is so bright  
Baby so near  
And she's givin' you a green light chorus  
Any old time  
You got your dial tuned in  
Baby by your side  
And your gettin' in a cool ride
