Workin' In Corners

Nanci Griffith

It's a southern road west of New Orleans
I'm fightin' off a cold
From these winter rounds
Houston
She's just around the corner
But I think I'll stop off here in Lafayette
Lord and have me another roundI've been workin' in corners all alone at night
Pullin' down whiskey
Keepin' my eyes away from the lights
I'll never be a fool but I will gamble foolishly
I've never let go of love
Till I lost it in my dreams
I don't want to go to sleep
'Cause I just might dreamI'm stronger now, there was a man in my hometown
He sang so pretty
I'm glad he turned my head around
But I'd forgotten how to play a one night stand
Lord I didn't have a word to say
Just holdin' that stranger's handI've been workin' in corners all alone at night
Pullin' down whiskey
Keepin' my eyes away from the lights
I'll never be a fool but I will gamble foolishly
I've never let go of love
Till I lost it in my dreams
I don't want to go to sleep
'Cause I just might dreamThese city streets at five in the mornin'
I would've stopped to phone you
But I'm almost home
At my back door
There's a porch light that's shinin'
I just don't mind livin' here by myself
If I leave it onI've been workin' in corners all alone at night
Pullin' down whiskey
Keepin' my eyes away from the lights
I'll never be a fool but I will gamble foolishly
I've never let go of love
Till I lost it in my dreams
I don't want to go to sleep
'Cause I just might dreamI don't want to go to sleep

'Cause I just might dream
Don't want to go to sleep
You know I sure can dream
And I sure can dream
Sure can dream
