

# You Will Know What To Do

## Home Video

we are drifting  
untethered, spinning and  
they don't how to  
stop the twisting but you  
you will know what to do

did you wonder so  
innocently why  
is this happening who will save me  
you heard

the rustling of a  
million hands to a  
silent prayer

did you cling so  
desperately to the  
hem of your  
parent's dress as you saw  
the brightest light in the  
distance shimmering  
distance shimmering

we are drifting  
untethered, spinning and  
they don't how to  
stop the twisting but you  
you will know what to do

it comes on so strong and you hold out your hands  
it breaks all your bones but it's time to take a stand  
enough enough enough enough  
enough enough enough enough

we are drifting  
untethered, spinning and  
they don't how to  
stop the twisting but you  
you will know what to do
