

This Is Killing Me

Skid Row

The worst of times collide
the best is left behind
things we shouldnt see
taking liberties
hung on every word
some i've never heard
the love there was to be
this is killing me
yeah this is killing me
this is killing me
yeah this is killing me...
mistaken leap of faith
that's fallen out of place
disguised as unity
the unseen injury
the slamming of a door
that calls a dog to war
what is and what shall be
yeah this is killing me
THIS IS KILLING ME...
THIS IS KILLING ME...
(we've cut the skin)
to watch it bleed
but under neath
THIS IS KILLING ME.....
before the system shuts us down
emotions running underground
let's promise that we won't look...
~~~~~back~~~~~  
~~~~~.on.~~~~~  
~~~~~this~~~~~  
there's never right and always wrong  
we fought for love for far too long  
let's free ourselves  
and lead our separate lines  
i'm gonna FLY...  
I'M GONNA FLY...  
I'm gonna Fly!...  
ooo...

solo de guitarra  
The worst of times collide  
the best is left behind  
the love there was to be  
this is killing me...  
yeah! this is killing me..  
this is killing me...  
(we've cut the skin)  
to watch it bleed  
but under neath
