

No Need For Dreaming

MisterWives

[Verse 1]

Never ever knew that this could be
My reality, oh whoa
All my years expecting tragedy
Crashing down on me, oh whoa
Within you, there's a light I could not fight
Even if I tried, oh whoa
Forever by my side, in this ride
We'll never let this die, oh whoa[Chorus]

I will follow you
'Til there's no beat left within me
There's no need for dreaming
You shake the insides
Of what I hide
Brought me to life
Conquered all of my shy
There's no need for dreaming[Verse 2]

Hope was drifting far away from me
Further out to sea, oh whoa
Comfortable with being lonely
Woe is me, oh whoa
Unaware of all my sorrow
Swallow, whoa, my happiness
You dug down deep and pulled out the peace
Love was released, oh whoa[Chorus]There's no need for dreaming[Verse 3]

No hold on the days
That we spent wasting away
You let me in
Without ever seeking friends
You overflowed my soul
And made all good things grow
And no, no, we're not made for sorrow[Chorus]There's no need for dreaming
