

# Bounty

## Snowblink

In a roomful of friends sleeping oh  
I dream of ten rainbows around me  
The whole sky bends with the bounty

Oh isnâ€™t our love just like an equator?  
Hot in the spring and hot in the autumn  
They say, â€œdonâ€™t ever end, dear!â€•

But danger danger always finds me  
In friend or fauna come find me  
Lead me to some dark den where my kin could only pray iâ€™d never go

In a roomful of friends sleeping oh  
I dream that ten trees fall around me  
And then grow up again

Yes what once was close as combeeth and  
Candlelit our darks and deeps  
What once was near as water is to sky  
Now is gone

Still the gulls and the pellics and the plovers told me  
If you lost it at sea, it can be retrieved  
But it comes back changed

---
