

You'll Never Know (My Love)

Edwyn Collins

From the beginning
No easy winnings
Head's all a muddle [?]
and that's the trouble with love

(You'll never know my love)
my love
(You'll never know my love)
You'll never know You'll never know
(You'll never know my love)
my love
You'll never know my love

and she
she saw right through me she knew
my heart was torn in two
More than a little confused
Am I her yesterday's news

(You'll never know my love)
my love
(You'll never know my love)
You'll never know You'll never know
(You'll never know my love)
my love
You'll never know my love

and I can see the snowflakes falling
the winter calling
but I'm still stalling
and even though I can't forget ya
my head won't let ya
inside my heart
inside

(You'll never know my love)
my love
(You'll never know my love)
You'll never know You'll never know
(You'll never know my love)

my love
You'll never know my love
(You'll never know my love)
