

In The Heart

Kool & The Gang

Sing it from the mountain
Tell it to the people
Sing it from the mountain
Tell it to the people When you say you love somebody
You got to let them know about it
You should let them know it
When you say you love somebody
You got to let them know about it You got this feeling youve been wanting to share
It makes you feel as though youre walking on air
You say this feeling needs a thing called love
Then you should tell the one youre thinking of When you say you love somebody
You got to let them know about it
You should let them know it
When you say you love somebody
You got to let them know about it
It is time to show it In every person, theres a yearning to love
This is the message that is sent from above
In every heart, theres a love so true
Thats why Im sayin that I love you When you say you love somebody
You got to let them know about it
You should let them know it
When you say you love somebody
You got to let them know about it
It is time to show it You know that I love you
You say you love me too
So why dont you let me know
Lets open our hearts and let the feelings show Sing it from the mountain
Tell it to the people
Sing it from the mountain
Tell it to the people When you say you love somebody
You got to let them know about it
You should let them know it
When you say you love somebody
You got to let them know about it
It is time to show it When you say you love somebody
You got to let them know about it
You should let them know it
When you say you love somebody
You got to let them know about it

It is time to show it When you say you love somebody
You got to let them know about it
You should let them know it
When you say you love somebody
You got to let them know about it
It is time to show it When you say you love somebody
You got to let them know about it
You should let them know it
When you say you love somebody
