

Glow In the Dark

Winter Gloves

Ive got it, yeah Ive got it, yeah Ive got itIve got a fire in me

Theres so much I have to see

From where I was before

To how far I've yet to go I'm gonna raise my hands

Gonna take a stand

Gonna turn my voice up loud I'm glow in the dark now

Glow in the dark now, now, now

I'm glow in the dark now

Glow in the dark now, now, now, now(Ive got it, now, now, now, now, Ive got it, yeah Ive got it, Ive got it)Ive
got a fire in me

got a fire in me

Its so bright I cant believe

I was ever scared before of things

I could not controlIm gonna raise my hands

Gonna take a stand

Gonna turn my voice up loud I'm glow in the dark now

Glow in the dark now, now, now

I'm glow in the dark now

Glow in the dark now, now, now, nowStrange light, follow as it burns

Strange life, of unexpected turns

You fight on and even if you fall

You get back up againI'm glow in the dark now (Some hearts youll never win)

Glow in the dark now, now, now (And some pain never ends)

I'm low in the dark now (But these are the shoes you're walkin in)

Glow in the dark now, now, now, now (So just get back up again)

Now, now, now (just get back up again)
