

Black Widow

Chantal Claret

Shes 59 in 5 inch heels
and when shes dressed shes always dressed to kill
a flat black car and a big fat ass
shell turn the head of every man shell pass
one mans poison is another mans girl
you can give her loving but she wants the world
Shes real black widow and shes out to get you
and when she sinks her teeth in you are through
Shes got skulls on the wall of the men shes erased
and shes ready to kill by the look on her face
Shes a real black widow and shes out to get you
shes out to get you
With big brown eyes and long red hair
shes set her sights upon a trillionaire
say the devils name and shell appear
if you dont got money the you sure got nothing to fear
one mans treasure is another mans past
shell leave you broken like she did the last
Shes real black widow and shes out to get you
and when she sinks her teeth in you are through
Shes got skulls on the wall of the men that she erased
and shes ready to kill by the look on her face
Shes a real black widow and shes out to get you
shes out to get you
1-2 shes out to get you
3-4 leaves you dead on the floor
5-6 shes ready to call it
shell look a lot taller when shes standing on your wallet
1-2 shes out to get you
3-4 leaves you dead on the floor
5-6 no one to rescue
whos that knocking on your door?
Shes real black widow and shes out to get you
and when she sinks her teeth in you are through
Shes got skulls on the wall of the men that she erased
and shes ready to kill by the look on her face
Shes a real black widow and shes out to get you
shes out to get you
