

Forever (iTunes Session)

Six60

[Ad-Lib]

Yeah

Ooh, whoa[Verse #1]

Look into my eyes

It's the start of my demise

Everything I know and trust

But we shall rise

And much to their surprise

Cos we are not the ones

Whose time has begun, yeah[Instrumental][Chorus]

This is forever, yeah

Baby, they come, they go

But you know I know

This is forever, yeah, yeah

They come, they go

But you know I know, yeah[Verse #2]

People are our lives

Till they die and send their knives

The stoning of their words

And the malice in their minds

But we shall rise

And much to their surprise

Cos we are not the ones

Whose time has begun, yeah[Instrumental][Chorus]

This is forever, yeah

Baby, they come, they go

But you know I know

This is forever, yeah, yeah

They come, they go

But you know I knowThis is forever

This is forever

This is forever

This is forever

This is forever

This is forever

This is forever

This is forever

This is forever

This is forever

This is forever
This is forever[Chorus]
This is forever, yeah
Baby, they come, they go
But you know I know
This is forever, yeah, yeah
Baby, they come, they go
But you know I knowForever
Forever
