What Angry Blue?

Seven Mary Three

I know how the good wind blows and it gives me my time

Don't let them drag your hatred off the line
I know how the anger goes so I bury mine
You know they had me working overtimeI want no part of your black heart causes
Empty speeches, broken promiseI know how the anger flows so I carried time
Don't let them drag the needle through your dime
I know how the hatred goes so I buried mine
Lucky seven, Lucky rolls the dice, yeah that's rightI want no part of your black heart causes
All this preaching and still no progress
What angry blue has got into you?
