Gravity

Nikki Flores

Everytime that you told me ,
that we would write our own story ,
there was something in your voice that ,
made me believe ,
every way that you steal my heart ,
for every thing that you are ,
there's something in your love that ,
tells me i need you ,
but you can't get started ,
when you're heavy hearted .
we're both fighting gravity ,
and it's making it hard to breathe ,
when your hope gets frozen ,
and your fears unspoken ,
cuhs you don't wanna fall again ,
well i'm falling too .
if this love's enough for you ,
then this love's enough for me ,
so why can't we overcome ,
this gravity .
it's pushing down on you ,
it's pulling down on me ,
why can't we overcome ; this gravity ,
we can't get off the ground ,
we can't get off the ground ,
we can't get off the ground , gravity
we can't get off the ground ,
we can't get off the ground ,
we can't get off the ground .
why can't we overcome , yeah .
everybody gets afraid ,
of saying what they wanna say ,
they dont' want their words to ,
get caught up in the open
i wanna take that chance on you ,
knowin there's so much to lose ,
were standing on this road but ,
don't know where it's going ,
but you can't get started ,

when you're heavy hearted ,
we're both fighting gravity
and it's making it hard to breathe
when your hope gets frozen
and your fears unspoken
cuhs you don't wanna fall again ,
well i'm falling too .

if this love's enough for you ,
then this love's enough for me ,
so why can't we overcome ,
this gravity .
it's pushing down on you ,
it's pulling down on me ,
why can't we overcome ; this gravity ,
we can't get off the ground ,
we can't get off the ground ,
we can't get off the ground , gravity
we can't get off the ground ,
we can't get off the ground ,
we can't get off the ground .
why can't we overcome
i , i , wonder what you're thinking
i , i , gotta find a reason ,
i i , won't you love to lift me up the ground ,
won't you life me off the ground ,
i , i , wonder what you're thinking
i , i , gotta find a reason ,
i i , won't you love to lift me up the ground ,
if this love's enough for you ..
if this love's enough for you ,
then this love's enough for me ,
so why can't we overcome , this gravity .
it's pushing down on you ,
it's pulling down on me ,
why can't we overcome this gravity .
we can't get off the ground ,
we can't get off the ground ,
we can't get off the ground , gravity ;
we can't get off the ground ,
we can't get off the ground ,
we can't get off the ground ,
why can't we overcome ..
we can't get off the ground ,
we can't get off the ground ,

we can't get off the ground , gravity ,
we can't get off the ground ,
we can't get off the ground ,
we can't get off the ground ,
why can't we overcome . .
this gravity .
