# Share It All

## Jessie Ware

Could you share it all with me
And I'll share it all with you
Share it all with me if you want to
I can see that you want to but though what's strong can be easy to you
I want you to know that I already know
I can see that you're thinking whatever you let yourself give in
You're looking at me like you already knowWe'll never get to no room
They know the destination
Tell me what you want me to do
Exchange the information
Tell me what you want me to do
Don't run awayCould you share it all with me
Share it all with me
And I'll share it all with you
Just show me what to do
Share it all with me
Share it all with me if you want toYou're looking the other way
Never show you what you gonna do
But if you took the lead
Well, I could follow you
Keep going around again
It's like we've been here beforeWe'll never get to no room
They know the destination
Tell me what you want me to do
Exchange the information
Tell me what you want me to do
Don't run awayCould you share it all with me
Share it all with me
And I'll share it all with you
Just show me what to do
Share it all with me
Share it all with me if you want toI know that you could too
I know that you could tooShow me what to do
Show me what to do
Show me what to do now
Show me what to do
Show me what to do
Show me what to do now
Show me what to do

Show me what to do
Show me what to do nowI could follow you
Yeah I could folow youShare it all with me
And I'll share it all with you
Share it all with me
I know I could you
I know you could
I know we could
I know we could
I know you could do too
