

# Colour Me

## The Blue Aeroplanes

Now I'm sliding, it's intriguing  
So young yet too old to learn  
That summer is the thirst  
The river always runs dry first You're in heaven  
This is heaven now  
You're in heaven You're in heaven  
This is heaven now  
You're in heaven As the tides they draw and close  
And the seasons turn again  
Will the moon still wax and wane?  
Will you always color the day? You're in heaven  
This is heaven now  
You're in heaven You're in heaven  
This is heaven now  
You're in heaven Now I'm sliding, it's intriguing  
So young yet too old to learn  
That summer is the thirst  
The river always runs dry first You're in heaven  
This is heaven now  
You're in heaven
