

Very Best Friend

How to Dress Well

I want you I need you, I need you, I need you
Get rid of saying anything else, babe
I need you, I need
And times change and you hear me cry, babe
But I still trust you, I trust you
In your eyes baby, I see the right way
I see the right way
I know I can be extra sentimental
Yes, stumble sometimes it's just right
I can say it's smarter but I want it gentle
Just save the rest for tonight
Cause you're my baby I want you to have it all
Want you to have my baby, just don't be apart?
Our difference wouldn't matter at the end
Just know that you will always be my very best friend
I love you, I love you from the moment that i first saw you
I often wonder... I know you want to A truth like that, that opens up, kind of begets others truths, and when you
discover truths like that how you think about truths within better concealed, does sort of make you alter the way
that you look within, and that opens up.
