Down Down Down

The Presets

Well, I'm deep down
I saw you baby in the corner of my eye
You were looking oh so fine
You drove by me in a purple Cadillac
Heading for a friend of mine
I saw you later down on highway 41
Doin' ?bout a hundred and three
I tried to catch ya, but baby I lost ya
Baby won't you come home with me
I want to take you down down down
I'm so deep down in love (down down down)
Babe you got me fallin' (down down down)
Babe I'm so deep down in love
Come on baby won't you take me with you
I need a shot of rhythm and blues
I know to stop, but the band is so hot
Ain't got nothing to lose

Oh, mama mama lookin' so cool
I want to make you mine all mine
You know baby you're driving me crazy
You're driving me out of my mind
I want to take you down down down
I'm so deep down in love (down down down)
Babe you got me fallin' (down down down)
Babe I'm so deep down in love
(Down down down)
Babe I'm so deep down in love (down down down)
You know you got me goin' (down down down)
Babe I'm so deep down in love, no, no, no
You know that I want ya, got to have ya, want ya, need ya
got to, want ya, yeah
Babe I'm so deep down in love I know
Yeah, yeah
Deep down in fallen baby
Callin? in you
