Sail Into The Sun

Gentlemen Hall

ill take the sun and watch it surround you
all of the rain will follow all around you
and i, ill pull you closer when youre floating far away
and i, dont need no reason we'll just get away
when we sail into the sun into the sun
sail into the sun into the sun
ill make the clouds a carpet and canopy
won't touch the ground
ill stay up here just you and me
and i, ill pull you closer when youre floating far away
and i, dont need no reason we'll just get away
and we sail into the sun into the sun
