Wytches I

Inkubus Sukkubus

Come join with us in our rune tonight
And feel the circle spin
Let your spirit soar in the lunar light
As the Spiral Dance begins
Come with us speeding through the night
As fast as any bird in flight
Silhouettes against the Mother Moon
We will be there soon
When the spinning ceases you can dance no more
Kiss the silent earth
We will tell our children of the Ancient Lore
At the moment of their birth
Isis Astarte Diana Hecate Demeter Kali Inanna
