

Waste of Time

God Lives Underwater

How much longer will I be waiting for you?
I've been thinking of what I'm gonna do
Knew when I saw you the look on your face
Hardly had to ask you over to my place I've been waiting, anticipating you
You know it's just a waste of time
Hoping I would change my mind
What's this coming over me
I don't feel free anymore I could please you but I don't choose to now
I've got needs you know, please fulfill them somehow
Know I seem demanding it's all worthwhile
Need your understanding of how to make me smile I can see your working out just fine
You know it's just a waste of time
Hoping I would change my mind
What's this coming over me
I don't feel free anymore You know it's just a waste of time
Hoping I would change my mind
What's this coming over me
I don't feel free anymore What do you think you mean to me
How important you must seem
What's this coming over me
I don't feel free anymore
