Little Sister

Bell X1

There's another kind of red under the bed
We've all been branded
Barcode on my head
We can all go beep as we checkout
Your flexible friend is but a spy
Your movements mapped
Your drinklink dries
I fail to see how this card is so smartLittle sister's been watching you
Little sisterSo you want to walk the earth
You know she flies
She's mastered the art
Of truth and lies
To her you'll never be more than just a numberThere's another kind of red under the bed
We've all been branded
We can all be read
Or is it all in my head
Kill the cowboy
