Watch Me Drown

Seether

I wanted to forget how you swallowed me whole
I wanted to suggest we let the shit go
I overstayed a while and let you beat on my soul
I never could digest how you were so cold
Concealed behind a smile with teeth as sharp as they show
The bullet in your hand, it had my name on
I'm gonna run and hide, I'll disappear for a whileI feel so dead inside, and it's all your faultBut you don't feed me now
No longer hold me down
You'll never watch me drown
I hope you figure it out
No longer sickened with doubt
You'll never watch me drownWith every day gone by, I felt so useless and old
I never could decide why it should be so
Another wasted try to say what I can't controlI feel so dead inside and it's all your faultBut you don't feed me now
No longer hold me down
You'll never watch me drown
I hope you figure it out
No longer sickened with doubt
You'll never watch me drownI wanted to forget how you swallowed me whole
I wanted to suggest we let the shit go
I overstayed a while and let you beat on my soul
I never could digest how you were so coldBut you don't feed me now
No longer hold me down
You'll never watch me drown
I hope you figure it out
No longer sickened with doubt
You'll never watch me drownBut you don't feed me now
No longer hold me down
You'll never watch me drown
I hope you figure it out
No longer sickened with doubt
You'll never watch me drown
