Pleasant Heart

Ought

Something crawled into your pleasant heart
And cried out for the head
Saying who will lead the body now?
Who will lead the body now into the sea?
Not I so we swimWhen you're living in the shell
When you're living in the shell
When you're living in the shell
Screaming how do I get out?
Something crawled into your pleasant heart
And cried out for the headSomething crawled into your pleasant heart
And cried out for the head
Saying who will lead the body now?
Who will lead the body now into the sea?
Not I so we swim awaySaying how and how we are
Saying how and how we are
Saying what and how we are
Saying what and how we are
Saying what and how we areWas that a lie?
What am I?
Point the ocean here and I'll see yaWhen you're sitting in the shell
When you're living in the shell
When you're living in the shell
Screaming how do I get out?When you're living in the shell
Saying what and how we are
Saying what and how we are
Saying what and how we are
Saying what and how we are, well
